

## A LIVING WILL

A Living Will, also called an "Advanced Care Directive", sets forth your personal wishes regarding your medical care. The standard Iowa State Bar Association form essentially states that in the event you have a terminal condition and are not expected to live very long, your health care provider shall not use artificial life support to keep you alive.

There are other variations of the living will. We can provide you with alternatives and discuss your choices.

Since these documents involve health care decisions, you may also wish to consult with your primary physician or someone else in the health care profession.
